**GARDENLAND TO HOST ZERO-E EXPO ON APRIL 19th
PROFESSIONAL LANDSCAPERS CAN DEMO OVER 100
COMMERCIAL BATTERY-POWERED LANDSCAPE TOOLS**

Campbell, CA, April 3, 2022 – Gardenland Power Equipment, a nationwide leader in outdoor power equipment retail, will host the largest zero-emission landscape equipment expo on April 19th at John D. Morgan Park in Campbell. Professional landscapers and gardeners can demo the latest innovations in battery-powered landscape tools from the industry’s top manufacturers including Gravely, Mean Green, EGO, Makita, STIHL, Towa Tools, URS Robotics, Briggs and Stratton, Pellenc, and Zeronox.

Zero-Emission Equipment Demo - will take place on April 19th from 9am-4pm at John D Morgan Park, 540 West Rincon Avenue, Campbell 95008. There is no charge to attend and Gardenland recommends pre-registering for the event on their website www.gardenland.com/ze (English), and www.gardenland.com/zs (Spanish). Attendees that compete a demo from each manufacturer partner will be entered into the Zero-E Sweepstakes, and the grand prize is a trip for two to Hawaii. All prizes will be randomly awarded after the event.

California Transitions from Gas to Battery – California Governor California Gavin Newsom signed Assembly Bill 1346 into law on October 9, 2021. California Assembly Bill 1346 directs the California Air Resources Board to phase out the sale of gas-powered leaf blowers, lawn mowers and other small off-road engines by as soon as 2024. Lawmakers also approved \$30M in funds to be used for commercial rebates to go toward the purchase of electric equipment. Gardenland representatives will share further details on the implementation and timing of this legislation in both English and Spanish to educate the landscaping community.

Creating a Green Zone – representatives from the American Green Zone Alliance (AGZA.net) will attend the Zero-E Expo. AGZA engages municipalities, academic institutions, and private companies about the benefits of prudently implementing cleaner, low impact technologies and operations for the landscape maintenance industry. More information is available at www.agza.net
